## Observations... From Around Town

(BY JAY WHOZIT)

They say there is a limit to everything, well, sir, we sure hope that applies to rain because we have really had our fill of it for the past week. In addition to the intermittent showers on other days... the football season opens here tonight at Saint Stanislaus Stadium with the game between Bay High School and Stanislaus, and we believe that everyone who knows a football when he sees one will be on hand to cheer his or her individual hero on to victory... this week during the fall term of Circuit Court a seventeen year old youth was sentenced to serve 2 years in the penitentiary, which was with a doubt, according to the law, a just punishment for the crime he is supposed to have committed, but we cannot help but wonder if there couldn't possibly be a better way to handle a case of this kind where such a youngster is concerned... it may not happen in this particular case, and we hope it does not, but can you imagine what could be the outcome of a year spent in the company of hardened criminals, by a boy of seventeen?... it is really a sad situation and one that calls for considerable thought on the part of our lawmakers... the Saint Stanislaus midjet school football teams, the Fleus and Flies, have been invited to play in the Birmingham Toy Bowl game on Sunday, November 7th, and have accepted... our midjet footballers must have made a favorable impression on the Alabama folks, since this will be their second trip to the Toy Bowl... reports from the bedside of Brother Peter, at Touro Infirmary, are to the effect that he is still critically ill, and has a long, hard pull... remember him in your prayers... for auto drivers who travel the highways the highway patrol is stressing the importance of dimming lights on meeting another car, and we agree that this is a good idea, because many wrecks are the result of bright lights blinding drivers and causing damage to cars, injury and even death to occupants of the wrecked car... Hancock County, the City of Bay St. Louis, and Waveland will hold delinquent Tax Sales on next Monday, between legal hours, at the Court House, City Hall in Bay St. Louis, and the Town Hall in Waveland... On Wednesday of this week, the price of cigarettes in Louisiana was upped to 27 cents per package, as a result of the Long-Legislature tax boost which went into effect at midnight on Tuesday... three proposed bond issues totaling \$425,000.00 for municipal improvements for the City of Gulfport, were authorized this week in a special election... the repair work on the highway bridge was completed Thursday afternoon and traffic will be moving over it by Monday... in case you are interested, Sally Rond, with a troupe of 40 entertainers, is listed as one of the feature attractions at the Mississippi State Fair which will be held in Jackson, October 11-16.

## Thieves Enter Peoples Federal Savings And Loan Office

Thieves entered the office of the Peoples Federal Savings and Loan Association on Main Street some time Monday night and stole approximately \$300.00 in cash. They made their entrance through the rear of the office, breaking a window pane from which they opened a lock on the back door.

Mr. Mauffray, President of the Association, says that the association was probably fortunate in that they had not locked the safe as it probably would have been blown and the loss would have been far greater. It is customary he stated with deposits being made daily and only a small amount of cash on hand at closing time, that the combination is not turned on the safe.

The robbers did not take the checks, but these with other contents of the safe were strewn on the floor.

Shriff Johnson, was at the scene of the robbery as soon as he was notified, but it was impossible to get any prints or any trace of the robbers.

## Work On Hancock- Harrison County Bridge Completed To-Day

Inspection Being Made By Highway Commission Authorities—Will Be Open To Traffic Monday

Work on the Hancock-Harrison County Bridge was completed today by Newsom Brothers of Columbia, Miss., who were awarded the contract on July 20th, by the Mississippi Highway Commission, for the repair work and restoration of the section of the bridge that was destroyed and damaged by fire.

Under their contract, the work was to be completed by September 20th. The contractors were a bit slow in starting due to the delivery of material and again they were delayed with some bad weather, and probably would have completed the job earlier if the recent storm had not destroyed several bents of the superstructure.

Inspection is being made and it is understood that the department will immediately take over the project. The Department has a force of men doing the work of surfacing the bridge, and the Bay St. Louis end has been completed and we are informed that the other end should be completed in a day or so.

Traffic will be allowed over the bridge on Monday, and it may be possible that light traffic will be allowed over it earlier.

The contract price for the work done by Newsom Brothers was \$394,500.00.

## "ARSENIC AND OLD LACE" PRESENTED

Once again the Bay St. Louis Little Theatre has scored an outstanding success, this time in its hilarious presentation of the laughter crammed comedy, "Arsenic And Old Lace." Theatre lovers of Bay St. Louis and nearby communities are becoming increasingly conscious of their opportunity to see big time plays, well presented, here at home, and the enthusiastic audience at each performance of "Arsenic and Old Lace" was further evidence that the Little Theatre has taken its deserved place among the assets of our town.

Abby and Martha Brewster, the two characters about whose gentle but deadly madness the action of the play centers, were played convincingly and extremely well by Mrs. Antoinette Trastour and Mrs. Marguerite Backman. Principal supporting roles, each one excellently portrayed, were taken by Philip Allison as Mortimer Brewster, Roland Weston as Teddy Brewster, Leonard Spangenberg as Jonathan Brewster, Virgil Dick as Elaine Harper, and Johnny Seafide as Officer O'Hara.

Smaller supporting roles, so well done in each case that they added the finishing touches to the play, were acted by Bill Smith as Dr. Einstein, Don McCulloch, as Lieut. Rooney, L. L. Lee as Mr. Witherpoon, Austin Haas as Dr. Harper, Walter Spangenberg as Officer Brophy, Frank Bertucci as Officer Klein, and Dr. John L. Griffin as Mr. Gibbs. It was the opinion of this reviewer that, although the entire cast was to be heartily congratulated, special orchids were due to Mrs. Trastour, Mrs. Backman, Mr. Weston, Mr. Leonard Spangenberg, and Mr. Allison, whose characterizations were particularly difficult and well done.

The large, new stage in the playhouse provided ample room for an elaborate setting and the one achieved by Mrs. Ruth Luderbach as Art Director would have done credit to any professional stage.

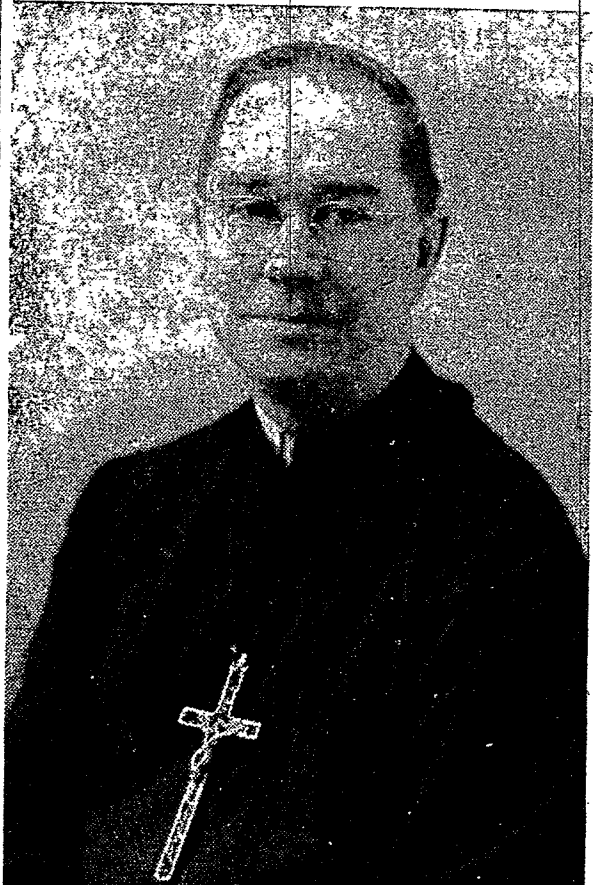

"Arsenic and Old Lace" was directed, until the final week, by Mrs. Anna Nachman; and upon her becoming ill, completion of rehearsals was under direction of Mrs. Ruth Hoefeld. Both directors were warmly praised for a difficult production which was a gratifying success.

## Rain Interrupts Legion Fair—Baby Contest To Be Held Later

The American Legion fair which was to be held the past week end was again interrupted by rains. The baby contest scheduled for 5:00 o'clock Sunday evening was postponed.

Commander A. J. Becker of the American Legion stated that at a later date, which will be announced, the contest will be held. Mr. Becker says that even though they had been forced on the past two week ends to curtail their entertainment, nevertheless, the legion had cleared an appreciable amount of money for their efforts, and that they were grateful to the many who had contributed.

## WEEK OF PRAYER SERVICE AT BAPTIST CHURCH

The Week of Prayer was observed on Tuesday afternoon at the First Baptist Church with Mrs. Claiborne Ladner, president of the Womens Missionary Society, in charge of the program.

Mrs. John T. Dearing gave the devotional; the theme "Magnify Missions in Mississippi" was discussed by Mesdames David Middleton, M. L. Hill, W. W. Weber, R. C. Tomlinson and J. J. Losch.

It was brought out by the speakers that the money given each year at the Week of Prayer service is used for work in this state for many causes. Those discussed on Tuesday were Association of Missions and summertime evangelistic youth program, pastoral aid for help for small churches, and building programs; help for students in college who are going to school on limited funds; help for the Indian, Chinese and Negroes in Mississippi; the maintaining of Camp Garaywa for girls and the Royal Ambassadors for boys.

There was a good attendance at the meeting and a creditable collection was made to carry on the work in this state.

## ST. STANISLAUS SIDELINES CLUB MET WEDNESDAY EVENING

The St. Stanislaus Sidelines Club met on Wednesday evening at the College, with Harold B. Weston, President of the Club, presiding, and with approximately 50 members present.

It was again brought to the attention of the members that the Sidelines Club tickets and the Bay High Booster Club tickets would be recognized by the school authorities for admission to the Bay High-Stanislaus Football game on Friday night September 17th.

It was also voted that a Ladies Season Football ticket be sold for the sum of \$2.50. These tickets may be purchased at the gate Friday night; however it is suggested that all ladies who are interested in purchasing season tickets call at the College on Friday before game time, or that they call Brother Edmund, to reserve tickets for them, and they may pick them up at the gate at the stadium on Friday evening.

Brother Alexis, President of St. Stanislaus, spoke to the Club, promising his full cooperation, and that if duty did not interfere that he would be present at all meetings. He also extended to the club his thanks for the public reception held in his honor on last Thursday evening.

## St. Stanislaus And Bay High Football Teams Meet In First Game To-Night

The biggest show in town starts tonight at 8 p. m. at the football field on Necaise Avenue, when the Rock-A-Chaws of St. Stanislaus and the Tigers of Bay High square off against each other in the most important football game of any of the players careers.

Players of both squads are optimistic and determined, but the coaches venture no word and only show pessimism. The weather of the past few days has hampered practice and slowed up the conditioning of some of the players.

Parades planned by both schools have been cancelled to avoid traffic congestion.

Students of both schools are holding pep meetings and practicing new songs and yells. The cheer leaders are getting in high gear, and advance notice is that the Bay High aggregation will really have that "new look."

Seating has been arranged so that supporters of each school will have a section, with the bands being placed side by side in the stands.

All the Bay High players are local boys and seven of the S. S. C. starters are local boys. This increases interest in the game since friend will be pitted against friend.

Probable starters for St. Stanislaus are: Mickey Dolan, LE; Luke Caruso, LT; James Eagan, LG; Robert Hearne, C; James Landry, RG; Norton Haas, RT; Buddy Cravetto, RE; Levy Ladner, LH; Joe David, FB; Walter Turcotte, RB; Charley Ladner, QB. The probable starting eleven for Bay High are: Pete Walker, LG; Clyde Favre, LT; Birch Bankston, LG; Billie Ray Bennett, C; Minard Hillhouse, RG; Laurence LaFontaine, RT; Delmar Dawsey, RE; Donald Bonnetcarre, QB; Irvin Prevost, LH; Truman Schultz, FB; Curtis Colson, RH.

Officials are Red Bullock of Moss Point, Referee; Eddie Khayat, of Moss Point, Field Judge; Wilbur Dees, of Pascagoula, Umpire; and Tom Carmony, of the Merchant Marine Base, Head Linesman.

**Abused Privileges Soon Removed**

Pete was bawling the "good old days" in Sam's general store the other day.

"I even miss the old spittoon, now that it's gone," says Pete; and Sam replied: "You always missed it, that's why it's gone!"

Which, in a sense, is how Sam runs his store. He keeps it homey and comfortable, but he has his standards! And a privilege abused is a privilege removed.

That's how it is with all well-operated businesses. Like the places selling beer, for instance. If any of them abuse the privilege—by failing to maintain clean, orderly surroundings—the brewer's take action to correct the fault or report it to the authorities.

It's what the brewers call their "Self Regulation" program—and from where I sit, it's the reason that places selling beer today are clean, and orderly, and homelike—proud of their privilege, and meaning to be worthy of it! Of course, the brewers' "Self Regulation" program operates only in the counties where the citizens have legalized the sale of beer.

COUNTY AGENT  
NOTES

Collards offer many advantages to the winter farmer. Extension Service garden specialists point out. These plants grow on a variety of soils, although an abundance of organic matter is required for best production. Collards will stand considerable cold and are even more tasty when exposed to a frost or two, specialists state.

Comparing favorable with cabbage, turnip greens and spinach, collards contain even more food value. The plant may be harvested at any stage of growth and at any season.

Growth increase rapidly during the fall and early winter, as the collard is a cool season crop.

For young, tender leaves the seed are sown in the drill in September, and plants allowed to remain thick. Leaves are picked in a manner similar to mustard. If the bud is not disturbed, the plant will continue to produce new tender leaves.

Varieties for Mississippi are White Cabbage or Southern.

## Spraying 2, 4-D

Farmers planning to use 2, 4-D for weed control next spring should plan now to obtain equipment, as during the past year the demand for suitable sprayers for 2, 4-D has exceeded the supply, according to U. S. Department of Agriculture and Mississippi Extension Service specialists. Separate spray equipment should

be used for 2, 4-D and for safety this equipment should never be used for garden, orchard or other sprays.

The chemical will kill or damage most broad leaved plants, valuable crop as well as weeds, when present in almost unbelievably minute traces. Small quantities often remaining even after a sprayer has been well washed will later damage sensitive plants if the sprayer is used for insecticides or fungicides.

In Mississippi, damage to cotton from 2, 4-D can easily occur unless precautions are taken. Such damage has in some instances occurred from drift when ditch banks near cotton fields were treated with the chemical.

The weed killer should be applied at low pressure, from 40 to 60 pounds per square inch. A sprayer equipped with coarse nozzles that make a fan-shaped spray help avoid fine mists which are likely to drift long distances.

# Our Policy on PONTIAC Deliveries and Prices

Despite the fact that Pontiac has built over a half-million cars since the resumption of production after the war, demand still exceeds supply. In the face of this production record, those who place orders now will still experience some delay in delivery. If you

are among the many people who feel that Pontiac represents an outstanding value—and wish to order a Pontiac for future delivery—you will be interested in the following policy on retail distribution which we, as Pontiac dealers, will observe:

## ORDERS FILLED BY PRIORITY

A definite proportion of the cars we receive from the factory is set aside for preferential delivery to users whose work is in the public welfare and to others with certain occupational requirements. Otherwise, all orders will be filled on the basis of the time when they are received.

## YOU PAY FACTORY-SUGGESTED PRICE

Due to changing economic conditions, we cannot, when you place your order, tell you exactly how much the car will cost when delivered in the future. But, at the time of delivery you will be charged only the factory suggested price on your model—which will be shown in a published list of local prices.

## YOU SPECIFY ACCESSORIES

While most of our customers order their cars equipped with accessories, we do not force accessories as a condition of sale. You specify what accessories you want when ordering your car, and these are the ones (and the only ones) it will carry when delivered. Some items may be lacking due to current shortages; but none will be added.

## REGARDING TRADE-INS

Naturally, if you have a car to trade, we would like to have it in order to take care of our regular used car customers. Our appraisals are fair, based on current conditions. But if you do not have a car to turn in, we still want your order and will accept it for delivery based on the conditions outlined above.

## WE WANT YOUR ORDER

And the sooner you place it, the sooner you will get delivery. So if you want a Pontiac, order it now.

## WE WILL ESTIMATE DELIVERY DATE

Due to conditions beyond our control, we cannot give you an exact date of delivery. But based on anticipated future shipments from the factory, we will, when you place your order, give you an honest estimate of when you may expect your car. Such estimates will be reviewed any time on request.

Since this is our "home town", our business and its future is based on our good relations with the people of this community. We are most happy that so many people here—as all over the country—have made Pontiac their number one choice as a new car.

Nothing pleases us more than to turn over the keys of a new Pontiac to one of the many people whose orders we have, because we know they have chosen well—for Pontiac is always a thoroughly good car, and a thoroughly good value, this year, next year, any year.

## ACE CAST, HURRICANE, ROMANCE PACE SENSATIONAL "KEY LARGO"

A million-dollar cast with Humphrey Bogart, Edward G. Robinson, Lauren Bacall features Warner Bros. sensational dynamite-packed film, "Key Largo," which opens at the A. & G. Theatre, Sunday, Sept. 9th for two days.

In addition to the above trio of stellar names, Lionel Barrymore and Claire Trevor are featured, and Thomas Gomez and John Rodney are cast in important supplementary assignments.

"Key Largo," based on the Maxwell Anderson play as produced on the stage by the Playwrights Company, has been directed by John Huston, the ace director who turned out "Treasure of the Sierra Madre," another Bogart winner. Richard Brooks and Huston collaborated on the screen adaptation of this dramatic tale.

This film marks Robinson's first appearance on the Warner lot since 1942. His "Little Caesar" still lingers as one of Hollywood's greatest performances, and in "Key Largo" he returns to this type of character. It is also interesting to note Miss Bacall's new personality in the film. In place of the girl who generally gives out smart quips, she plays a straight heroine role which reveals new facets of her vivid personality. Barrymore plays most of his role in a wheelchair, however, this adds to the effectiveness of the part, especially when the sparks begin to fly between the principal personalities.

Music for the production was directed under Max Steiner's skilled baton. Jerry Wald produced "Key Largo," which promises to be one of the sensational films of the season. It has an ace cast, a hurricane, romance, plus five of Hollywood's best personalities at the top now.

ORTTE THEATER

"THE BRIDE GOES WILD"

Van Johnson, June Allyson,  
Butch Jenkins

What happens when a playboy writer is forced to assume the obligations of a father in order to prove his respectability makes for the hilarious happenings of "The Bride Goes Wild," the M.G.M. comedy-romance in which Van Johnson, June Allyson and Butch Jenkins are put through their paces on the Ortte screen.

Here is a picture that will have you laughing at the face of the first subtitle. Johnson is the indolent

CAN BLACK-DRAUGHT

Yes, Black-Draught may help physical fatigue if the only reason you have that hinders feeling in bonnie of constitution. Black-Draught, the friendly laxative, is usually prompt and thorough when taken as directed. It costs only a penny or less a dose. That's why it has been a best-seller with four generations. If you are troubled with such symptoms as loss of appetite, headache, upset stomach, fatigue, physical fatigue, sleeplessness, mental hastiness, bad breath—and if these symptoms are due only to constipation—then see what Black-Draught may do for you. and mischievous writer of children's animal stories. Miss Allyson is the prim, puritanical New England drawing teacher who has been assigned to illustrate his latest book. When she discovers the author to be more addicted to alcohol than to art she precipitates a crisis which involves the introduction into his bachelor quarters of an "enfant terrible" in the person of young Jenkins.

It is up to Van to pose as the unfortunate father of this problem child—an imposture which brings about some of the most jocular proceedings you have witnessed on the screen, before Miss Allyson is finally able to win and reform her man.

The roles offer a field day of fun for its principals, with Johnson giving an enormously amusing portrait of a man who would rather play than work, and Miss Allyson lending droll authority to her part of the upright young woman determined to set him on the straight and narrow path. The stars are given some stiff acting competition in the work of ten-year-old Butch Jenkins who, in the most hilarious part he has ever had, plays the wise if incorrigible young orphan, Danny, whose resources for tormenting his elders are limitless. You will have a difficult time, for example, in forgetting how he breaks up one marriage and arranges another with the help of an army of ants!

PRACTICAL CONSERVATION  
MEANS More Gas FOR YOU..

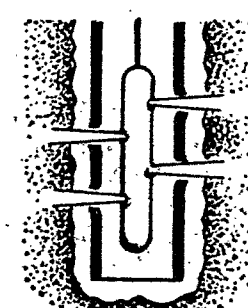

Yes, scientific methods of conservation applied to each new well mean more gas for your home, store or factory. Methods developed over the years for proper drilling and production assure land and royalty owners maximum recovery of gas or oil... assure consumers maximum volume of products for their use.

Practical conservation of mineral resources guides the operations of the United Gas organization. It is one of many functions of United Gas... all of which have the ultimate purpose of assuring a continued dependable supply of natural gas for our customers.

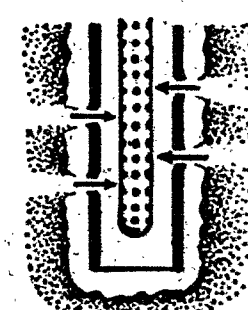

## UNITED GAS ...

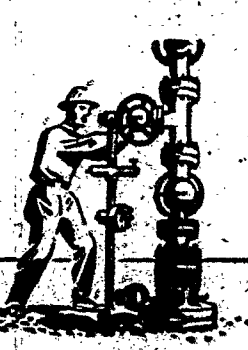

Serving the Gulf South

When producing sand has been reached, the drill stem is replaced with casing lowered to the bottom of the hole, and cemented into place. Small holes are shot or blown through the casing with a perforating "gun."

Small diameter tubing is lowered to the bottom of the hole and the heavy "mud" which is present all through the drilling operation is displaced with water to allow the well to come in.

Gas or oil enters the perforations at the bottom of the tubing and flows to the collection of valves at the head of the well called a Christmas tree. Here a man has complete control of the volume of gas or oil that flows from the well.
